Commission

Horizon Prize

MATERIALS FOR
CLEAN AIR

Can you
crack the **challenge?**

MATERIALS FOR CLEAN AIR

Develop the best material solution
to reduce the concentration of
particulate matter in cities.

COMPETE, INNOVATE & WIN

€3 million

Apply by **23 January 2018**

THE HORIZON PRIZE ON MATERIALS FOR CLEAN AIR

Aims to stimulate innovative thinking to find
a material-based solution to improve air quality in cities.

This solution should be:

affordable

sustainable

innovative

well-designed

The solution can be made
from any chemical
substance (e.g. plastic,
concrete, asphalt, etc.)
capable of reducing
particulate concentrations
in the air (e.g. by capturing
particulates).
